SECOND EDITION 1963 · PRICE 9d.

NEW AIRFIX
MOTOR RACING

Just like the exciting real thing!

Here's your chance to race a scorching red Ferrari or racing green Cooper over lap after lap of exciting, twisting track. And just like the real thing, you need skill to win. The set runs off mains or battery, and has 15 feet of rigid double track which can be assembled in a variety of track layouts. One of these includes a sweeping, road-hopping flyover! The cars are authentic 1/100th scale models with full Ackermann steering and are operated by two remote speed controllers. Bridge supports, barriers, and 14 crash barriers complete the exciting Airfix M.R.11 Motor Racing Set. Also available is another set, the M.R.12, with Lotus and Porsche cars and 15 feet of rigid double track.
