

Mogul Steel Toys

The Mogul range of toys are heavyweights in any sense of the word.

There's nine of them.

Strong steel and die-cast makes them equal to the toughest treatment handed out by the youngster who wants to play rough.

But strength is only part of the story. They're beautifully detailed, brightly coloured, and Meccano constructions can actually be built on to many of the toys to give extra play-appeal.

Mogul is a strong favourite, and the toys have been accepted by the Design Centre for inclusion in the Design Index.

Mogul. The tough toy for tough kids.

3222. Articulated Tipper (525 mm pack qty. 2) 

3265. Tractor & Trailer (463 mm pack qty. 3)
