

The Teifoc bricks are made from high quality natural materials.

With our specialized machines, the clay is formed in bricks, then dried and finally baked at high temperature, exactly like the real bricks used for the real houses.

The mortar is made from a mixture of fine sand and maize (corn)-extract.

To make the cement, mix 3 level tablespoons of cement-powder with 1 level tablespoon of water until the mixture is smooth.

With the trowel, apply sufficient cement on each brick. Place the brick in the required position and push down firmly. Remove the excess cement with the trowel.

The bricks are reusable after immersion in water for a few hours. After the cement is dissolved, clean the bricks with fresh water and let them dry before using them again with new cement.

Small castles

Art.-No. TEI 55; 351 x 292 x 47 mm
ages 6+, more than 120 pieces, at least 2 models
buildable, incl. cement bowl, towel, water-soluble
cement and construction manual

Huge supplement set

Art.-No. TEI 1500; 351 x 292 x 80 mm
ages 6+, more than 280 pieces,
incl. different types of stones, cement bowl,
towel and water-soluble cement

Basic set

Art. No. TE1 1000 - 310 x 205 x 145 mm
In a useful plastic box, over 100 parts,
including different types of bricks,
Window, Door, cement bowl,
rivet, water soluble cement

**Attention: This set does not
include an instruction!**

Cement 1kg

Art.-No. TE1 902 - 178 x 147 x 80 mm
water-soluble cement 1000 g

Piggery

Art.-No. TE1 1020 - 178 x 147 x 80 mm
Model piggery, including cement bowl,
trough, water-soluble cement,
detailed instructions

Horse stable

Art.-No. TE1 1021 - 178 x 147 x 80 mm
Model horse stable, including cement
bowl, trough, water-soluble cement,
detailed instructions

Cottage

Art.-No. TE1 1022 - 178 x 147 x 80 mm
Model Cottage, including cement bowl,
trough, water-soluble cement,
detailed instructions

Waterwell

Art.-No. TE1 1065 - 178 x 147 x 80 mm
Model waterwell, including cement
bowl, trough, water-soluble cement,
detailed instructions

Castle / Penholder

Art.-No. TEI 4000 • 292 x 176 x 80 mm
 A minimum of 2 models possible, including cement bowl,
 trowel, water-soluble cement, detailed instructions

House

Art.-No. TEI 4010 • 292 x 176 x 80 mm
 A minimum of 2 models possible, including cement bowl,
 trowel, water-soluble cement, detailed instructions

Deco Box

Art.-No. TEI 4020 • 292 x 176 x 80 mm
 A minimum of 4 models possible, including LED tealight,
 cement bowl, trowel, water-soluble cement, detailed instructions,
 including battery

Watermill

Art. No. TEI 4030 • 292 x 176 x 80 mm
 Incl. wooden water wheel,
 cement bowl, trowel, water-soluble cement,
 detailed instructions

Church

Art. No. TEI 4050 • 292 x 176 x 80 mm
 model church, cement bowl, trowel,
 water-soluble cement, detailed instructions,

Windmill

Art. No. TEI 4040 • 292 x 176 x 80 mm
 Incl. wooden windmill vane,
 cement bowl, trowel, water-soluble cement,
 detailed instructions

Houses

Art.-No. TEI 4105 • 351 x 292 x 80 mm
 Over 110 parts, a minimum of 2 models
 possible, including cement bowl, trowel,
 water-soluble cement, detailed instructions

Houses with tiled roof

Art.-No. TEI 4210 • 351 x 292 x 80 mm
 Over 200 parts, a minimum of 2 models
 possible, including cement bowl, trowel,
 water-soluble cement, detailed instructions

Christmas crib

Art.-No. TEI 4400 - 351 x 292 x 47 mm
 Model christmas crib, over 100 parts
 including LED tea light,
 cement bowl, trowel, cement,
 detailed instructions, including battery

Timber frame
 +
 Roof top

Framework house

Art.-No. TEI 4300 - 351 x 292 x 80 mm
 Over 200 parts, Timbered Roof Framework,
 including cement bowl, trowel,
 water-soluble cement, detailed instructions

Summer cottage

Art.-No. TEI 4500 • 351 x 292 x 80 mm
 Over 130 parts, a minimum of 2 models possible,
 including cement bowl, trowel, cement,
 detailed instructions

Starter Box

Art.-No. TEI 51 • 351 x 292 x 47 mm
 Over 110 parts,
 including cement bowl, trowel,
 water-soluble cement, detailed instructions

Knight's castle

Art. No. TEI 3600 • 439 x 329 x 105 mm
 Over 460 parts, including cement bowl,
 trowel, water-soluble cement, detailed
 instructions

Castle

Art. No. TEI 3500 • 351 x 292 x 80 mm
 Over 200 parts, a minimum of 3 models
 possible, including cement bowl, trowel,
 water-soluble cement, detailed instructions

Solargearmotor (in 1:150)
in connection with
1.0 Volt Solar panel
(included in C78)

Solar - House - Windmill

Art.-No. TEI8000 • 419 x 329 x 105 mm
Over 380 parts, large powerful solar panel (1V) and
high quality gear motor, at least 2 models possible,
including cement bowl, trowel, water-soluble cement,
detailed instructions

Villa with Garage

Art. No. TEI 4700 • 439 x 329 x 105 mm
 Model Villa, over 330 parts,
 playable on the backside according a dollhouse,
 including cement bowl, trowel,
 water-soluble cement, detailed instructions

Firestation

Art. No. TEI 4800 • 351 x 292 x 80 mm
 Model Firestation, over 200 parts,
 playable on the backside according a dollhouse,
 including cement bowl, trowel,
 water-soluble cement, detailed instructions,
 includes 'Sticker with Firestation' in different
 languages

Small Garden

Art.-No. TEI 9010 • 351 x 292 x 80 mm
 Over 145 parts, at least 2 models possible,
 including cement bowl, trowel,
 water-soluble cement, detailed instructions

Castle / House

Art.-No. TEI 8010 • 351 x 292 x 80 mm
 Over 150 parts, at least 3 models possible,
 including cement bowl, trowel,
 water-soluble cement, detailed instructions

Marble Run - RUN 'N' ROLL

Art.-No. TEI 800 • 351 x 292 x 80 mm
 Model Marble Run, over 210 parts,
 at least 2 models possible, overall all height up
 to 56cm, rail length 3,50m,
 including 5 marbles, bowls, trowels,
 water-soluble cement, detailed instructions

Farm

Art.-No. TEI 4600 • 351 x 292 x 80 mm
 Model Farm, over 180 parts, playable on the
 backside according a dollhouse,
 including 10 figures, cement bowl, trowel,
 water-soluble cement, detailed instructions
