

TRIX METAL CONSTRUCTION SETS

Trix, the metal constructional toy, possesses all the desirable elements of technique combined with the greatest simplicity. Trix parts are all metal, and skilfully and scientifically designed, strongly made, rust-proofed and without accessories. To make the finished model unusually rigid the construction strips have holes so arranged that two bolts can be inserted in every angle. A 72-page illustrated book describing a wide range of models is also issued. Trix No. 1 **6d.**, No. 1a **6d.**, Book of models **3d.**

Post 4d. No. 2
